Management Perspective

Commenting on the performance, Mr. Chander Agarwal, Managing Director, said:

“Continued headwinds from muted demand and high inventory levels brought down the number of goods dispatched during the quarter. Our stable gross margins reflect our resilience, driven by sustained capacity utilization and operational efficiencies. We strategically reduced business with certain customers offering low rates and generating non-profitable business. Overall, FY2024 ended on a positive note with a growth of 1.0%.”

I am pleased to announce the successful completion of automation at our sorting center in Pune. Covering an area of 1.40 lakh square feet, the facility is now equipped with an AI-enabled automated cross-belt sorter. This enhancement has accelerated our operations, improved the sorting process, and reduced errors, resulting in faster deliveries and decreased inventory holding times. This initiative is part of our company's broader effort to automate all sorting centers, demonstrating TCIEXPRESS's commitment to innovation in express delivery. The Rail Express business has garnered significant customer interest, leading to an expanded customer base of 4,500, covering over 125 routes. During the quarter, we have added 10 new branches to support our multimodal express business, bringing the total number of branches opened to 25 in FY2024.

Our strategic investments in technology and infrastructure have played a pivotal role in streamlining our operations and ensuring that we remain at the forefront of the industry. During FY2024, we incurred a total capex of Rs. 46 Crores, primarily spent on the expansion of our branch network, automation and ramping up our IT infrastructure. These investments align with our commitment to future growth and sustainable logistics practices.

Additionally, I am happy to announce the appointment of Mr. Hemant Srivastava as the Chief Operating Officer of Surface Express at TCI Express. Furthermore, Mr. Ashok Pandey has been appointed as the Chief Operating Officer of Multimodal Express. Mr. Pandey joined TCI Express in 1996 at its inception. Over the course of 27 years, he has held various pivotal roles spanning operations, sales, marketing, and served as the Regional Head for the Pune Region.

We are also proud to announce that the Sorting Centre in Chakan, Pune, received the 'Gold' rating under the LEEDv4 BD+C Warehouses and Distribution Centers rating system. This recognition is a testament to the company's commitment and innovative initiatives towards sustainability. In line with our dedication to prioritizing our people, we are pleased to announce our recertification as a Great Place to Work, reaffirming our commitment to fostering a positive and inclusive workplace environment. Furthermore, we are proud recipients of the sustainability Award from CUMI, a prominent manufacturer of coated and bonded abrasives in India. Additionally, we have been honored with the title of Best B2B Logistics Partner for FY2023-24 by Royal Enfield. These accolades highlight our commitment to excellence and our valued partnerships within the industry.

In alignment with our shareholder-friendly capital allocation policy, the Board of Directors have proposed a final dividend of Rs 2 per share, resulting in a total dividend of Rs. 8 per share for FY2024, representing a payout of 400% of the face value. With our resilient asset-light business model and a clearly defined strategic growth plan, we are confident in our ability to navigate the dynamic market landscape and capitalize on promising growth opportunities.

Growth Drivers for the Indian Logistics Industry

The National Logistics Policy (NLP) assists states and union territories (UTs) in creating their Comprehensive Logistics Action Plan (CLAP), which emphasizes integrated digital logistics systems, standardized physical assets, and improved warehousing services. This policy aims to boost logistics efficiency, enhance trade, and facilitate sector-specific plans for effective logistics.

The PM GatiShakti National Master Plan initiative seeks to enhance multimodal logistics infrastructure by partnering with states and UTs. It provides a unified decision-making platform and extends special assistance to states with a 50-year interest-free loan of ₹1 lakh crore for capital investments. The plan aims to fortify logistics infrastructure and streamline the movement of goods across various transportation modes.

The Unified Logistics Interface Platform (ULIP) and e-Logs are vital components of the NLP, with ULIP serving as an integrated platform to boost efficiency and technology utilization in India's logistics infrastructure, while e-Logs act as a dashboard for seamless access to logistics services, simplifying registration, coordination, and monitoring of logistics stakeholders' issues. These initiatives aim to streamline logistics operations and enhance overall service quality.

India's logistics industry has moved up 6 places to reach the 38th rank out of 139 countries in the World Bank's Logistics Performance Index. Showcasing advancements in logistics services

- Multiple infrastructure projects worth Rs.108 lakh crore under the National Infrastructure Pipeline (NIP) aim to propel growth in the logistics industry
- The government has proposed infrastructure development with an 11.1% increase in capital expenditure, raising it to Rs. 11.11 lakh crore for the fiscal year 2024-25 from Rs. 10 lakh crore in the fiscal year 2023-24.
- The construction of 66,100 km of highways and 3,300 km of dedicated Freight Corridors will optimise the efficiency of freight movement across the country
- The logistics industry employs 22 million people, making it a major source of employment and livelihood for millions
