TCI EXPRESS Welcomes Union Budget 2025-26 Announcements

- Offering New Growth Opportunities for Express Delivery Industry
- Rural Post Offices to be Logistics Powerhouse
- Gig Worker Welfare Scheme

Gurugram, India, February 01, 2025: TCI EXPRESS, India's fastest and largest B2B express delivery company, welcomes the transformative announcements in the Union Budget 2025-26, which are poised to unlock new growth avenues for the express delivery industry and the Indian economy at large. Mr. Chander Agarwal, Managing Director of TCI EXPRESS, lauded these measures in the budget that promise to drive growth, efficiency, cost-cutting and job security across the industry.

The government's plan to transform over 1.5 lakh rural post offices into a logistics powerhouse is a game-changer for last-mile delivery and rural connectivity. This initiative aligns seamlessly with the express delivery industry and TCI EXPRESS's extensive multimodal infrastructure, spanning over 60,000 locations across India. By leveraging this development, organised players can expand their footprint in underserved rural areas to ensure faster and more reliable delivery services.

The introduction of a comprehensive social sector scheme for gig workers is a significant step toward improving job security, welfare, and health benefits in the sector. it is expected to attract skilled talent to the express delivery industry, enhancing service quality and operational efficiency. This initiative will help enhance service quality and foster a more inclusive, sustainable workforce, benefiting companies like TCI EXPRESS in delivering superior, efficient services.

The Budget's focus on improving route planning and connectivity by providing access to the PM Gati Shakti database for urban land records will help companies optimise route planning, improve connectivity, and reduce transit times and operational costs. This data-driven approach, will enable them to offer faster, more efficient road transport services across India with greater transparency, and visibility.

The government's focus on upgrading air cargo infrastructure is another critical development that will benefit the entire logistics ecosystem. These initiatives will complement TCI EXPRESS's focus on Air Express delivery, optimising our operational processes, reducing lead times, and improving air freight handling, thereby enhancing our fast and time-definite services.

The Budget sets a strong foundation for the express delivery industry. TCI EXPRESS, India's leading B2B express delivery company, is eager to leverage these opportunities, driving innovation, efficiency, and growth.
